Letterkenny, County Donegal

PROFILE

UX/UI and Product Designer with a background in Human–Computer Interaction, Cyberpsychology, and Artificial Intelligence Engineering. I enjoy figuring out why a product feels difficult to use and turning that into simpler, more intuitive experiences. I have experience with user interviews, usability testing, information architecture, user flows, wireframing and high-fidelity prototyping, and I prefer using research and user feedback to guide design decisions rather than designing based on assumptions. My background in AI and psychology gives me a different way of looking at how people interact with technology, and I like using that perspective to create products that are clear, useful and easy to use.

EXPERIENCE

Secretary – ATU Green Pantry Society **Dec 2025 – Sep 2026**

Atlantic Technological University *Letterkenny/Ireland*

- Coordinated food donation collections, volunteer participation, scheduling, communications and society records while supporting the fair and organised distribution of donated food and essential items to students.

Artificial Intelligence Engineering Intern **Jul 2024 – Aug 2024**

Dijital Sokak *Istanbul/Türkiye*

- Independently designed and developed the AI component of a video game recommendation system, including a custom hyperparameter optimisation tool and iterative model evaluation.
- Collaborated with team members on implementation decisions and communicated technical concepts.

Retail Operations & E-commerce Assistant (Part-time) **2020-2024**

Sadira Jewellery *Istanbul/Türkiye*

- Sourced and purchased jewellery stock from suppliers and wholesalers, replenishing products according to stock needs.
- Managed product inventory and maintained accurate stock records using Microsoft Excel.
- Updated product and stock information as products were purchased, sold and replenished.
- Managed Etsy order fulfilment, including preparing, packaging and arranging shipment of customer orders.
- Maintained organised product and order records, developing practical understanding of e-commerce workflows and customer-facing product operations.

Board Member – Software & Informatics **Sept 2022 - Sept 2023**

Bahçeşehir University *Istanbul/Türkiye*

- Supported academic and industry events, sponsor communications, social media content and audience engagement.

SELECTED PROJECTS

TFI Live – Mobile Application Redesign

Master's UX/UI Project

- Led the end-to-end UX research and redesign, including user interviews, usability testing, information architecture and high-fidelity prototyping in Figma.

ChatGPT Mobile UX Redesign

Human–AI UX & Product Design Project

- Evaluated the mobile experience through Human–AI interaction research and designed concepts addressing prompt guidance, cognitive load, transparency, source credibility and user trust.

Vhi Mobile Application Redesign

Product Designer | Independent Healthcare UX Project

- Conducted a UX and information architecture evaluation and redesigned navigation, universal search, homepage hierarchy, personalisation and healthcare service discovery.

Player Experience & Inclusive Design

M.Sc. Cyberpsychology Dissertation

- Designed and conducted a quantitative study with more than 400 participants and analysed the results in R, investigating relationships between perceived inclusivity, player identification, autonomy and relatedness.

EDUCATION

M.Sc. Cyberpsychology – First Class Honours (75.22%) **Sept 2025 – Sept 2026**

Atlantic Technological University *Letterkenny/Ireland*

Relevant Modules:

- Social Cyberpsychology
- Human-Computer Interaction
- UX Design
- Artificial Intelligence and Ethical Responsibility
- Behaviour Across the Cyber Lifespan

B.S. Artificial Intelligence Engineering **Sept 2020 – Nov 2024**

Bahçeşehir University *Istanbul/Türkiye*

SKILLS

Design: Figma, Wireframing, High-Fidelity Prototyping, Mobile UI Design, User Flows, Information Architecture

Research: User Interviews, Usability Testing, Heuristic Evaluation, Survey Development, Qualitative Research, Quantitative Research, Personas

UX & AI: HCI Principles, Accessibility-Informed Design, Conversational UX, Prompt Guidance, Colour Psychology, Transparency, Trust, Progressive Disclosure, Apple Human Interface Guidelines

Technical: Python, R, MySQL, Data Analysis, Machine Learning, MLFlow, PyCaret, HTML/CSS, JavaScript
